## Bolsas / Estágios / Emprego Científico / Oportunidades / Scholarships / Opportunities:

- 1) IMPRS ANARCHIE - Ph.D. opportunities in Social Anthropology, Archaeology and History  
The International Max Planck Research School for the Anthropology, Archaeology and History of Eurasia (IMPRS ANARCHIE), a cooperation between the Max Planck Institute for Social Anthropology and the Martin Luther University Halle-Wittenberg, offers:  
Openings for PhD students  
starting 1st of October 2015

The aim of ANARCHIE is to renew transdisciplinary agendas in fields where socio-cultural anthropologists, archaeologists, and historians have much to gain from cross-fertilisation. While the first and the second cohorts of PhD students are conducting research in the fields of collective identifications and religion and ritual respectively, the third cohort will explore inequality and social change, with a particular focus on economic and demographic drivers. For the purposes of ANARCHIE, Eurasia is defined as the super-continent which comprises the whole of Asia and the whole of Europe. Current projects range from Britain and Spain to Mongolia and Vietnam. The IMPRS ANARCHIE is open to students from all countries and offers an international three-year PhD program in a stimulating research environment. Highly motivated M.A. graduates in Social Anthropology, Archaeology, History or a related discipline are encouraged to apply.

Prazo limite: 28.Fevereiro.2015

- 4) Max Planck Institute for Demographic Research, Rostock  
PhD student, post-doctoral fellow or research scientist positions (m/f)  
Job Offer from January 17, 2015  
The Max Planck Institute for Demographic Research (MPIDR) is recruiting highly qualified PhD students or post-doctoral researchers (up to three positions: PhD student (m/f), post-doctoral fellow (m/f) or research scientist level (m/f)) working on social determinants of health and life expectancy in high-income countries.  
Prazo limite: n/d  
Link: <http://www.mpg.de/8854439/phd-post-doc-research-scientists-mikko>

- 5) PhD position or postdoctoral grant - anthropology of kinship  
Job Offer from January 19, 2015

The Max Planck Institute for Social Anthropology is one of the world's leading centres for research in social anthropology. Common to all research projects at the Max Planck Institute is the comparative analysis of social change; it is primarily in this domain that its researchers contribute to anthropological theory, though many programmes also have applied significance and political topicality.

The Department 'Integration and Conflict' headed by Professor Günther Schlee is offering 1 PhD position or postdoctoral grant for work on the anthropology of kinship (starting May 1st 2015).

Prazo limite: n/d

- 6) ERC ADVANCED GRANT

#### Objectives

Advanced Grants are designed to support excellent Principal Investigators at the career stage at which they are already established research leaders with a recognised track record of research achievements. Applicant Principal Investigators must demonstrate the ground-breaking nature, ambition and feasibility of their scientific proposal.

#### Size of ERC Advanced Grants

Advanced Grants may be awarded up to a maximum of EUR 2 500 000 for a period of 5 years.

However, up to an additional EUR 1 000 000 can be requested in the proposal to cover (a) eligible "start-up" costs for Principal Investigators moving to the EU or an Associated Country from elsewhere as a consequence of receiving the ERC grant, and/or (b) the purchase of major equipment and/or (c) access to large facilities.

#### Profile of the ERC Advanced Grant Principal Investigator

ERC Advanced Grant Principal Investigators are expected to be active researchers and to have a track record of significant research achievements in the last 10 years which must be presented in the application. There is little prospect of an application succeeding in the absence of such a record, which identifies investigators as exceptional leaders in terms of originality and significance of their research contributions.

Thus, in most fields, Principal Investigators of Advanced Grant proposals will be expected to demonstrate a record of achievements appropriate to the field and at least matching one or more of the following benchmarks:

- 10 publications as senior author (or in those fields where alphabetic order of authorship is the norm, joint author) in major international peer-reviewed multidisciplinary scientific journals, and/or in the leading international peer-reviewed journals and peer-reviewed conferences proceedings of their respective field;
- 3 major research monographs, of which at least one is translated into another language. This benchmark is relevant to research fields where publication of monographs is the norm (e.g. humanities and social sciences).

Other alternative benchmarks that may be considered (individually or in combination) as indicative of an exceptional record and recognition in the last 10 years:

- 5 granted patents;
- 10 invited presentations in well-established internationally organised conferences and advanced schools;
- 3 research expeditions led by the applicant Principal Investigator;
- 3 well-established international conferences or congresses where the applicant was involved in their organisation as a member of the steering and/or organising committee;
- International recognition through scientific or artistic prizes/awards or membership in well-regarded Academies or artefact with documented use (for example, architectural or engineering design, methods or tools);
- Major contributions to launching the careers of outstanding researchers;
- Recognised leadership in industrial innovation.

Prazo limite: 02.Junho.2015, 17:00:00 (Brussels local time)
